

# Learn an instrument with Create Music

If your child is interested in learning a particular instrument they are able to have lessons during school time from a music teacher who is trained in that instrument and these lessons can be offered as one to one or in a group. This is done through the Brighton music service called **Create Music** who provide lessons across many schools in our city. They offer lessons on a wide range of instruments, including violin, guitar, drums, keyboard or piano, vocals and brass instruments. If you would like your child to have instrument lessons at school please visit their website: <https://createmusic.org.uk> and click 'Children and Young people' and then 'Lessons at School'. Under the section 'How lessons work' you will be able to fill out an application form.
