Sustrans School Programme

Design a Cycle Top

Suitable for: All

You will design a cycling jersey top that you could wear out on a bike ride. You can design it for yourself, a family member, a friend or maybe a famous cyclist.

You will need

- Colouring pencils, crayons or paints
- Printer and paper
- **Or**, if you don't have a printer, copy out the line drawing onto paper.

Find examples on page 3

Extra activity

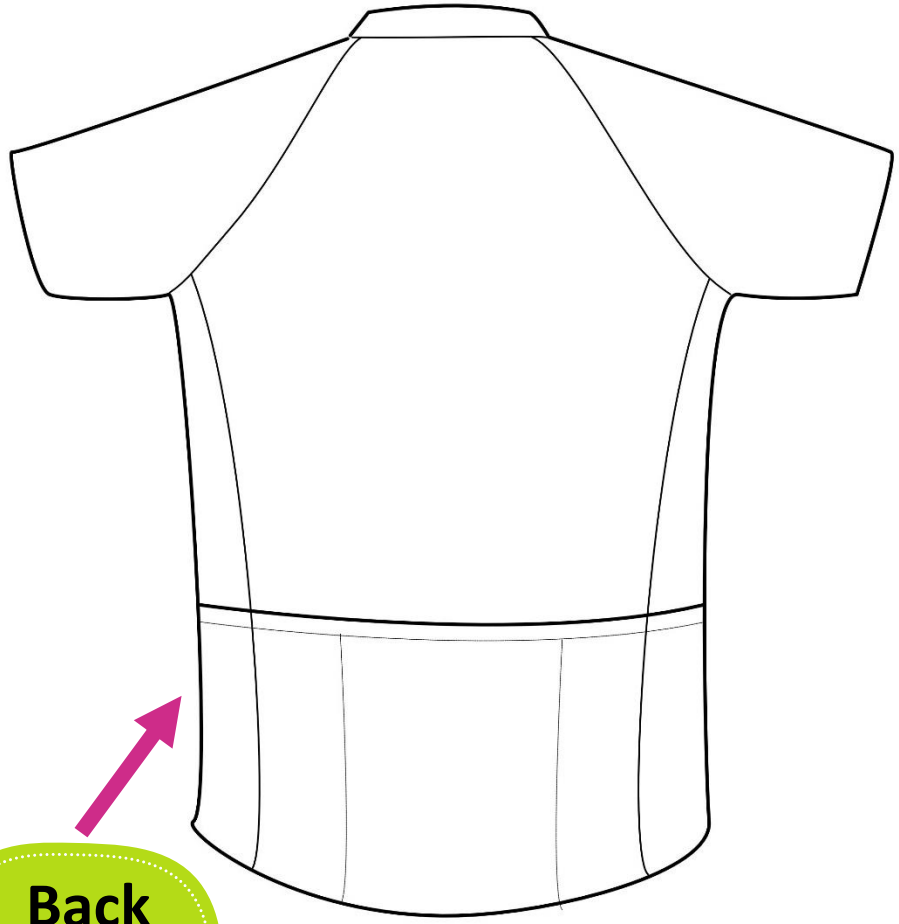

You could cut out your finished jersey design, and with help from a family member, take a photo of someone wearing your design!

Examples

Tour De France has FOUR unique jersey designs for the top cyclists: Overall Winner, King of the Mountain, Sprinter and Best Young Sprinter. Can you discover what they look like?

Extra Activity

Wear your design

You could cut out your finished jersey design, and with help from a family member, take a photo of someone wearing your design!

Tips

- Carefully cut around the front top design, cutting out around the front collar for a better fit around the neck.
- Stand about 2meters apart for a great image, but you might have to move closer or further away to get the right fit with your top.

Make sure that you get an adults help when using scissors
